ABOUT

IT professional with enterprise support, troubleshooting, and access management experience. Strong communicator with five years of prior management experience and a user-focused approach. Currently pursuing CCNA to expand networking skills.

EXPERIENCE

RWJBARNABAS HEALTH

Oct 2024 - Present

Application Support & Front Desk Admin

Responsible for providing front-line IT support and administrative services for a 40+ personal clinical team, ensuring smooth operation of end-user devices and patient-facing workflows.

- Troubleshot hardware, software, and connectivity issues across desktops, printers, phones and network ports; partnered with IT field officers to resolve escalated incidents efficiently
- Registered, checked in, and scheduled 100-200 patients daily in EPIC while maintaining strict accuracy, compliance, and insurance verification standards
- Identified and documented recurring technical issues, contributing insights to workflow improvement discussions with IT and department leadership

TRC COMPANIES, INC.

Sept 2022 – June 2024

Energy Efficiency Program Support

Responsible for supporting energy-efficiency program operations through compliance reviews, data validation, and cross-functional coordination with engineering teams.

- Conducted infrastructure and system compliance reviews, verifying accuracy of technical documentation and equipment configurations
- Managed large datasets and enhanced tracking systems, improving data validation speed and workflow reporting accuracy
- Collaborated with engineers and analysts to resolve data discrepancies, ensuring consistency across system reports and field documentation

TRC COMPANIES, INC.

June 2022 - Sept 2022

Energy Efficiency Intern

Managed robust recruiting events to increase student sign-ups and distribute promotional materials.

- Processed daily digital submissions and resolved data-related errors, ensuring accurate documentation for ongoing projects
- Conducted field inspections to verify hardware and equipment configurations met operational and compliance standards
- Assisted technical and compliance teams with documentation updates, improving project readiness for audits and quality assurance
